Dairy products by commodity and origin.....	35

NOTES TO THE STATISTICAL TABLES

The source of these data is the U.S. Bureau of the Census. Export statistics shown here are for official U.S. exports of domestic agricultural products, both government and non-government, leaving by sea, air, or land. Shipments from all U.S. customs districts' exit points are counted. All export statistics in this report are based on Shipper's Export Declarations, which are required to be filed with U.S. Customs at the time of shipment. The Bureau of the Census obtains all Shipper's Declarations from Customs and produces a series of statistical reports available to the public in printed and data tape form.

For exports, the country of destination is defined as the country of ultimate destination or the country where the goods are to be consumed, further processed, or manufactured, as known to the shipper at the time of exportation. If the shipper does not know the country of ultimate destination, or if the destination is changed at a later date, the shipment is credited to the last country to which the shipper knows that the merchandise will be shipped in the same form as when exported. Therefore, the statistics tend to be overcounted for shipments to traditional transshipment countries such as Hong Kong, Belgium, and the Netherlands, and undercounted for certain other countries.

Quantities for red meats are on a product-weight basis and are given in metric tons unless otherwise noted.

Export values in this report are f.a.s. (free alongside ship) value at the U.S. port of departure, based on the transaction price, including inland freight, insurance, and other charges incurred in placing the merchandise alongside the carrier at the U.S. port of exportation. The value excludes any costs beyond the point of exportation. The statistics may not always reflect the value as defined above, as exporters sometimes find it difficult to assign a value in accordance with this definition.

Totals may not add exactly due to rounding error. In some tables, zeroes may indicate quantities or values less than one-half of the unit indicated (e.g., less than 500 kilograms or \$500).

In 1978, 1980, and 1983, some commodity specifications and tariff codes were changed, resulting in shifts in how commodities are categorized and aggregated. Some discrepancies with earlier publications may be noted.

Members of the European Community are aggregated in certain tables and treated as a single entity. In this report, the European Community does not include Spain or Portugal, nor does it include Greece prior to 1981.

For further information, contact the U.S. Department of Agriculture, Foreign Agricultural Service, Dairy, Livestock and Poultry Division, Room 6616 South Agriculture Building, Washington, DC 20250, telephone (202) 447-7196, telex 64334 ARICWASH.

DAIRY, LIVESTOCK AND POULTRY DIVISION
FOREIGN AGRICULTURAL SERVICE

Do you need information about

- Overseas markets and buying trends?
- New competitors and products?
- Trade policy developments?
- Overseas promotional activities?

Then **Foreign Agriculture** — USDA's fact-filled monthly agricultural trade magazine — is for you. Based on official USDA data available nowhere else, **Foreign Agriculture** articles are clear and crisp, written to provide the export information you need, in a concise and extremely readable form.

Special information is found in **Foreign Agriculture's** telegraphed, targeted news departments: Fact File, Country Briefs, Trade Updates and Marketing News. And its tables and graphs will give you an immediate grasp of what's going on overseas.

In addition, periodic special issues—such as the one devoted entirely to value-added exports—will give you a wide range of detailed information about overseas markets.

If you use agricultural facts and figures in your business, you need **Foreign Agriculture**.

Subscribe today! Just \$16.00 (\$20.00 for foreign delivery) brings you Foreign Agriculture for 12 full months.

FAS Circulars: Market Information For Agricultural Exporters

As an agricultural exporter, you need timely, reliable information on changing consumer preferences, needs of foreign buyers, and the supply and demand situation in countries around the world.

The Foreign Agricultural Service can provide that information in its commodity circulars.

World agricultural information and updates on special FAS export services for the food and agricultural trade all are available in these periodic circulars.

For a sample copy of these reports—which can supply you with the information you need to make sound business decisions—check the box indicated, fill out the address form and mail it today.

To subscribe: Indicate which publications you want. Send a check for the total amount payable to the Foreign Agricultural Service. Only checks on U.S. banks, cashier's checks, or international money orders will be accepted. NO REFUNDS CAN BE MADE.

Mail this form to: Foreign Agricultural Service
